

Our Purpose

Lunar Engineering's purpose is to support their clients in achieving their business goals. We do this by offering a team of experienced consulting engineers.

Lunar Engineering brings the engineering solution to the 'owner's' project team

Your Partners

Lunar Engineering would work in partnership with the project owner's delivery team for:

- Design review input
- Concept Studies
- Technology Reviews
- Risk Assessment
- Contract Management
- Project Team Development
- Operations support / review
- Contract warranty / performance
- Strategy & Planning
- Business & Operational excellence

Our Experience

Lunar Engineering brings to our clients:

- Reduced risk
- Life cycle planning approach to their assets
- Improved plant reliability and availability

Our People

Specialist Engineers with extensive engineering, consulting, maintenance and operational experience offering leadership and expertise across a large range of industries.
